

2,000 Riot at Georgia Prison

REIDSVILLE, Ga. (AP) — Screaming prisoners assaulted guards with metal posts wrenched from beds Tuesday before tear gas bombs quelled a riot of about 2,000 inmates at Georgia State Prison.

The riot broke out just hours after a blast from a tower guard's shotgun halted an escape attempt by three convicts shortly after midnight.

The three convicts were armed with homemade knives.

Fred Hallford, state prison director, described the riot as a "complete insurrection."

Hallford estimated that 2,000 of the prison's 3,071 inmates were involved in the two-hour outburst.

Several guards, he reported, were assaulted with metal posts wrenched from prison beds. None, however, was seriously hurt.

Hallford said the main disturbance began among a group of pri-

soners about 7 a.m. as they were marching from the dining area back to the dormitories. It spread quickly to other groups.

Hallford said one guard suffered a heart attack at the height of the outbreak.

Forty state troopers were rushed to the prison when the trouble began and 30 more were called in later.

"It's lucky we had the troopers

on hand," Hallford said, "Otherwise it might have been ghastly."

During the escape attempt the convicts, wearing uniforms taken from three overpowered guards, were headed toward a fence when spotted by a tower guard.

The guard, B. P. Peavy, fired buckshot at the three men when they ignored his warning. Lonas Roy Caughorn and Ralph Cozzallano were wounded and the third, Robert O. Sims, surrendered.

\$17 Mil. Asked for F.E. Work

WASHINGTON (UPI) — The Army has requested \$17,485,000 for military construction in Korea, Japan and Okinawa, congressional testimony disclosed Tuesday.

The subcommittee of the House Committee on Appropriations released Part Three on testimony relating to military construction appropriations for fiscal 1964. The subcommittee was headed by Rep. Harry R. Sheppard (D-Cal.).

In testimony released Tuesday, there were two proposed appropriations listed for Japan, two for Okinawa and six for Korea.

One of the items for Okinawa was a \$367,000 appropriation for construction of an enlisted women's barracks that would house 100 Women's Auxiliary Corps members.

Chairman Sheppard asked Maj. Gen. W. R. Shuler what quarters (Continued on Back Page, Col. 4)

JCS Think Soviets Will Test

WASHINGTON (AP)—General Maxwell D. Taylor has told senators that the Joint Chiefs of Staff assumed, in supporting the limited nuclear test-ban treaty, that the Russians "would attempt clandestine testing of some sort."

This was disclosed Tuesday when the Senate Foreign Relations Committee made public heavily censored testimony taken privately from Taylor, chairman of the Joint Chiefs, and General Curtis E. LeMay, Air Force chief of staff.

Taylor testified that he thought (Continued on Back Page, Col. 2)

TROOPERS BLOCK 'BAMA SCHOOLS

Gov. George Wallace of Alabama addresses a cheering Labor Day crowd at Birmingham only a few hours after he

ordered Tuskegee schools to remain closed for at least a week rather than be desegregated. (UPI Radiophoto)

By The Associated Press
Gov. George Wallace of Alabama, attempting to block desegregation in Alabama's public schools, deployed his state troopers in two cities Tuesday.

The governor removed all but 25 state patrolmen from Tuskegee, Ala., after again refusing to allow the newly-integrated Tuskegee Public School to open. A detail of several hundred patrolmen then moved to Birmingham where three of the city's schools

WASHINGTON (UPI)—The Justice Department said Tuesday night that it intends to see that Alabama public schools are opened to Negro students despite Gov. George Wallace's order delaying desegregation.

are to be integrated Wednesday. Tuesday morning Wallace's troopers, supported by mounted sheriff's deputies, turned back students and teachers as they approached the Tuskegee school. (Continued on Back Page, Col. 1)

U.S. Holiday Road Toll Soars to 559

By United Press International
Motorists set a new all-time record for summer holiday tragedy with 559 deaths on the highway over the Labor Day weekend.

A total of 713 lives were lost in all accidents over the weekend.

Weather

Tokyo Area Forecast
Thursday: Cloudy; High 82, Low 65
Friday: Cloudy; High 80, Low 65
Saturday: Partly Cloudy; High 82, Low 65
(U.S. Weather Center, Pacific AD)

The carnage on automobile-clogged highways exceeded previous marks for both three-day and four-day summer holidays.

The death breakdown for the 72-hour period from 6 p.m. Friday to midnight Monday showed 559 traffic deaths. Drownings took 67 lives, boating accidents 9 and plane accidents 6. There were 72 deaths attributed to miscellaneous accidents.

California led the death count with 66 fatalities. There were 45 in Texas, 30 in New York State, 29 in Michigan, 28 in

North Carolina, 24 in Illinois, 22 in Georgia, and 21 in Indiana.

Only two states—Alaska and Delaware — escaped highway death over the holiday.

The Labor Day toll set these marks:

It surpassed last year's Labor Day toll of 501, the previous record for the holiday.

It was well over the 325 killed during this year's Memorial Day holiday. That figure, compiled over a 107-hour holiday, was the record for a

summer weekend until the July 4 holiday topped it.

It was the third successive holiday marked by a new record of highway deaths.

The death tally was a blow to the Safety Council, which had issued a pre-holiday estimate of 420 to 520 traffic deaths.

Later, as the toll climbed the estimate was raised to 575.

The Council said a total of 200 persons could be expected to die in traffic over a similar, non-holiday period.
